

INVITATION

Your Chance To Collaborate With NASA

It's More Than Just Rocket Science!

You're invited to explore the possibilities of collaborating with NASA in areas as diverse as Artificial Intelligence, space technologies, life sciences, communications, nanotechnology, energy, information systems, robotics, and so much more!

- Are you a **UT Austin researcher**?
Imagine the limitless possibilities of working together with proven NASA scientists and engineers through collaboration or technology co-development.
- Are you a **UT Austin student** with an entrepreneurial spirit?
Then the Startup NASA initiative might be just the opportunity you need. Startup NASA addresses two of the biggest challenges faced by the business leaders of tomorrow: raising capital and securing intellectual property rights.
- Are you an Austin **Entrepreneur** looking to improve your business or technology?
A NASA innovation might be the answer to a challenge you've been trying to solve. Maybe this innovation could enhance your technology or even serve as the foundation for a new commercial product.

Thursday, March

30
